

# BETTER WATER

Water Treatment Equipment, Service, and Supplies

## AQUATIC H<sub>2</sub>O

*Pure Water Treatment Systems for the Aquarium Business*

Better Water, Inc.

# *AQUATIC H<sub>2</sub>O*

Aquatic H<sub>2</sub>O Water Systems are the safe and effective way to purify aquarium water. The Aquatic H<sub>2</sub>O system uses a combination of reverse osmosis and de-ionization, in one water purifying system. This unique design allows the system to remove virtually 99% of all contaminants including; bacteria, pesticide fluorides, chlorine, and chloramines, while providing 100% ionic purity. Why trust your aquarium business to anything less than the Aquatic H<sub>2</sub>O?

## *WHY CHOOSE AQUATIC H<sub>2</sub>O ?*

Low maintenance and operational cost

Built in redundancies with our unique RO and DI polish system

Cost effective reduction of chloramines

No onsite hazardous materials = No HAZMAT or OSHA regs for hazardous material

Eliminates the need for waste neutralization tanks

Provides a pure water baseline

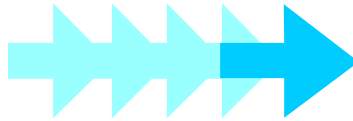

## **PURE WATER = HAPPY FISH**

Every water system and every project is unique.

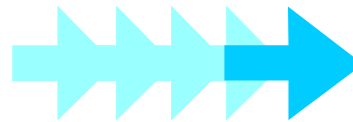

# WHY BWI?

Better Water begins each consultation with an experienced team and resources that will work towards understanding every aspect of the customer's needs. This ensures we design a system specifically for your company's requirements. Through our dedicated Decision Making Process (DMP), the most innovative, functional and practical solutions are delivered to our customers.

Not all Reverse Osmosis Systems are the same

Not all RO systems are the same; neither is the water quality. The BWI Aquatic H<sub>2</sub>O systems are designed to provide maximum recovery and optimal water quality while minimizing capital and operating cost.

BWI is the manufacturer

The BWI Aquatic H<sub>2</sub>O Systems provide high purity product water. The systems are engineered for durable operation, easy installation, and maintenance. Each unit is pre-tested prior to shipment.

Better Water, Inc is an equipment manufacturer. Which means no middle man when it comes to our water treatment systems. In business since 1971, BWI provides service and support that offers the Highest degree of efficiency for our customers.
