

# BETTER WATER, INC<sup>®</sup>

THE AUTOMATIC WATER CONDITIONER - RESIDENTIAL

## The Automatic Water Conditioner

Better Water, inc's Automatic Water Conditioner makes a clear difference throughout your home.

Spot free dishes, brighter, softer clothes, and the elimination of scale build up on appliances are just a few of the ways The Automatic Water Conditioner makes your home and lifestyle a little more comfortable.

Our easy to use and versatile system Offers five-cycle regeneration to maximize efficiency. Plus, with an internal bypass, you will always have continuous water during the backwash and regeneration cycles. An external bypass valve is included for ease of service.

## Easy and Versatile

- Adjustable cycles allow settings to be adjusted to your needs
- 1" Flow through valve meets WQA Standard S-100
- Supplies more water with less water pressure drop
- Made of durable, corrosion-resistant material
- Minimum moving parts mean easy maintenance
- Conditioning tank is NSF certified
- Sturdy polyethylene brine tank holds up to 350 pounds of salt
- Brine safety valve help to prevent brine tank overflow
