

# BETTER WATER, INC

## CRO SERIES - COMMERCIAL / INDUSTRIAL

CRO 7200 SERIES

CRO 3600 SERIES

COMMERCIAL INDUSTRIAL REVERSE  
OSMOSIS 3,600 to 14,400 GPD

### STANDARD FEATURES

- Powder coated steel frame
- 4 x 40 membranes
- Air cooled stainless steel pump
- 5 micron pre-filter
- Incoming, product & reject water quick disconnects
- Inlet & Membrane pressure gauges
- Membrane pressure adjustment
- Low inlet pressure switch
- Automatic flush
- Conductivity monitor
- Enclosed 508A, industrial panels
- Control Panel including:
  - Operate/Clean selector switch
  - Motor control
  - High level switch connection
  - Low level switch connection
  - Pre-treatment lockout connection
  - Low inlet pressure alarm/light

The Better Water, Inc CRO SERIES reverse osmosis machines are designed to provide high purity product water. The systems are engineered for durable operation, easy installation and maintenance. Each unit is pre-tested prior to shipment.

Whatever your application the CRO SERIES can be your solution!

## CRO SPECS

Parameters	CRO -7200	CRO -3600
Number of membranes	4 - 8	2-3
Product water flow , gpm	5 - 10	2.5-3.75
Pump	Air-cooled, SS	Air-cooled, SS
Motor	3 HP, 3 ph, 60Hz, 230/460VAC, TEFC	2 HP, 1 ph, 60Hz, 115/230VAC, ODP
Conductivity Monitor	Standard. With 4-20mA output for optional remote monitor	Standard. With 4-20mA output for optional remote monitor
Automatic Flush	Standard	Standard
Product water flow meter	Standard	Standard
Membrane pressure adjustment	Standard	Standard
Inlet pressure gauge	Standard	Standard
Membrane pressure gauge	Standard	Standard
Low inlet pressure switch	Standard	Standard
Quick Disconnects	Incoming water, product water, and reject water	Incoming water, product water, and reject water
Steel Frame powder coated and painted	Standard	Standard
Inlet Valve	Standard	Standard
<b>Control Panel</b> including: Operate/Clean selector switch Motor control High level switch connection Low level switch connection Pre-treatment lockout connection Low inlet pressure alarm/light	Standard	Standard

\* other phases and voltages are available upon request. Additional charges may apply

### Available accessories include the BWI Clean-in-Place Station !

- Cone bottom shape ensures all of the mixture is accessible—NO WASTE
- Pressure Gauge
- Product & Reject Ports
- Outer graduation lines—NO GUESSING ON AMOUNTS
- Chemical Pump ( 1/2 hp, 115 vac)
- Easy roll casters with safety lock wheels
