* Storage Tanks for In-Direct Feed
* Alarm and monitoring packages
* Thorough Water Analysis
* In-Service
* System Drawings
* DI Connections
* Tags and Labeling of Systems
* 24 / 7 Service and Support

WATER TREATMENT FOR DIALYSIS

- Better Water is an expert in the field of water systems for dialysis. Our systems provide high quality, reliable water systems which are crucial in providing superior patient care.
- From the system design, to installation, and continued support, Better Water LLC provides the solutions and service you need.
- Our strong commitment to patient safety, customer satisfaction, regulatory compliance, and technology innovation, are the driving forces behind the Better Water LLC's product line.

SOLUTIONS

- Better Water LLC offers turn key solutions to the dialysis provider. We review the feed water analysis, along with the clinical demands for RO water and then design a water system specifically for your facility.
- Pre-treatment, reverse osmosis, and post-treatment, together provide you with a high quality, reliable system that will produce the pure water that a dialysis patient requires.
- All of our systems carry a 510(k) certificate from the FDA and are designed to meet or exceed (ANSI/AAMI/150 26722:2009) on RO quality water for dialysis.
